- The playground markings & sizes we provide have been specifically designed as a result of findings by the Health Promoting Playground Project, developed in Wales.
- Promotes children's enjoyment in the school playground.
- Increases participation in active games and play.
- Stimulates positive social behaviour, inter-action and co-operation between children.
- Helps children to use their environment creatively.
- Prices for other designs and configurations or your own requirements are available upon request.

Made from hard wearing
road marking material
pre-formed into exciting
shapes and games
